Some Streams of Systemic Thought

(Draft update — May 2001)

Originated in 1996 by Dr. Eric Schwarz, Neuchâtel, Switzerland.
Extended in 1998, including items from the The Story of Philosophy by Will Durant (1933).
Elaborated in 2000-2001 from many sources for the International Institute for General Systems Studies.
Currently a research project of the IIGSS.

This rendition is the property of the International Institute for General Systems Studies.

KEY:

white	general systems
red	cybernetics
black	physical sciences
blue	mathematics
magenta	computers & informatics
green	biology & medicine
yellow	symbolic systems
orange	social systems
olive	ecology
gray	philosophy
cyan	systems analysis
purple	engineering
