

Collected Diagrams Temp: STELLA Flow Diagram of SDSIM Version1.doc

**STELLA Flow Diagram of SDSIM Version 1.0**  
**RECTANGLES are LEVELS (cumulatives), VALVES are RATES (flows),**  
**CIRCLES are variables or constants used to formulate the RATES as functions of the LEVELS**  
**at TIME = t for the iteration t+dt, where t=1950, 1951, .... 2199, 2200 and dt=1**

The circles with the slider image inside are the two variables currently accessible to manipulation by users (via the user interface to be described in Section 6):
